Enjoyment Matters

BenQ Document Camera S30

One-Touch Audiovisual Recording

The S30 allows you to create live audiovisual videos effortlessly by pressing the one-touch recording button on the control panel. It will then save everything recorded to your SDHC card. With your lessons turned into video clips, you can help absent students catch up missed work quickly and have more to share at parent-teacher conferences.

Qvision Software Tool

All it takes is a USB cable to connect your computer to the S30. Start sharing instantly and do editing together live as a class through Qvision! Be sure to test out all the enhanced drawing and annotation tools! You can also turn your lesson into video clips through the recording feature.

5M Sensor

Capture sharp and vivid images of just about any object with the 5-megapixel CMOS sensor - It doesn't get any higher than this!

5X Optical True Zoom and 40X Total Zoom

This is a practical tool for doing lab work together as a class. Being able to zoom in closely to observe tiny details helps students stay focused, understand better and learn more.

SDHC Extended Storage

Capture and save your lessons onto a SDHC card for future! You can save up to 32GB of images and videoclips with SDHC. With the S30, there's plenty of room to document every great lesson!
